

Kate Damsgaard and I have assessed the Nantucket Garden Club storage container today. After returning all the items from the House Tour and having newly purchased items for Green Thumb Show and the Chair of Boutique has requested space we have decided that we need to move to a larger space or do a very heavy cleaning with professional people. The unit is quite packed and we feel maybe two units would be better and safer.

I called GO STORE IT, the new place recommended to me on Tomahawk Road. They have two storage units side by side that are 10 X 10 that rents for \$308.00 per month. They also have two units across from each other size 10 X15 that rent for \$356 per month. You would have to hire a moving truck to help move everything.

We can also stay in the storage center we are in and rent a second unit there and hire movers to help us. I am sure there is space available.

There are items that can be thrown away for example the cash metal boxes, and order lighter umbrella stands. The sand containers that we use to put our signs for house tours can be replaced with silver poles that hold signs.
